Examinations and Assignments:
There will be two examinations, one scheduled on July 27th, the second a final examination on August 10th. Both examinations will be essay and short answer questions and will take place in class. The instructor will hand out study questions in advance of each examination.

Because of the pressures of time and the amount of material in the course, you must do the reading promptly and regularly. If you fall behind, you will find catching-up difficult. You also will profit more from the lectures and discussion of the material when you have read about the topic in advance.
