Attendance:
Regular (and I mean weekly) attendance is essential to doing well in this course. Regular attendance is a course requirement, and attendance will be taken at the beginning of each section meeting. You are allowed one unexcused absence during the semester. If you must miss a section because you are dying on your deathbed or a family member has passed away, please contact me in advance to make alternative arrangements. Having a hangover in bed does not constitute an excused absence in any way. Therefore, failure to attend the weekly section will severely damage your class participation grade.

Participation:
Along with attendance, active participation in discussion is important for you to succeed in this course. Participation means more than just coming to class and asking questions. Active participation means having read the material beforehand and being prepared to engage in an intellectual discussion with your fellow classmates. More importantly, your active participation will make sections far more interesting and informative. You are welcome to disagree, but please do so respectfully. It is important that we respect the opinions of others, especially those of your fellow classmates. Finally, your fellow classmates are your best asset in this course, and chances are the discussions will go best when we listen to other people and build on their ideas. Think of this as a symbiotic relationship! And always remember, although frequent comments are appreciated, it is the quality of your participation, not the quantity, that matters the most. Your active participation will be reflected on your final grade.
Requirement:
During the course of this semester you will be required to come to my office at least once. This is where you will receive the 5 pts out of the total 30 pts for participation. The office visit will give us the opportunity to get to know each other better outside of class. We can talk about anything you want! Please do not forget to come visit me. Sometimes I get a little lonely in my office ☺.

Section Grading (30 Points):
- Participation = 15 pts
- Attendance = 10 pts
- One-Time Office Visit = 5 pts

Attendance Deduction:
- 14-13 meetings (10 points)

Readings: (available at University Book Store or on reserve at College Library)

Kenneth J. Hammond, ed., The Human Tradition in Premodern China

Patricia Buckley Ebrey, ed., Chinese Civilization: A Sourcebook

Themes:

The course material will be presented in roughly chronological order. In addition, I will focus on three important themes.

1) What is China and what does it mean to be Chinese? Is there a single geographical or political entity that can, over time, be identified as China, or are there beliefs, family structures, ideologies or cultural patterns which can be defined as Chinese? Alternatively, is “China” just a modern construct?

2) Who were the Chinese elites, how did they exercise dominance and how did hierarchies change over time? How can Chinese history help us understand the concept of monarchy or “kingship”?

3) What has been China’s place in the larger world context and how does that affect our understanding of Chinese and world history?

Requirements:

Map Quiz (5%)

A list of items you must know and a sample map will be handed out in class in advance of the quiz.
Section (15%)
Your section grade is determined by attendance and participation in weekly section meetings. You should have the readings completed before section each week to facilitate discussion. You will be allowed one free absence in section for the semester; each additional unexcused absence will result in a one-half letter grade deduction.

Once during the semester you will be required to bring a current newspaper or periodical article about China to section and discuss its implications (bring copies for all section members). Possible sources for articles (most have web versions):

Midterm (15%) and Final (20%)
The midterm will include identifications of terms (see ID handout) and identification and analysis of quotes from the Ebrey readings. The final will be similar with the addition of an essay question related to the themes of the class. Examinations will not be rescheduled without a medical excuse or other valid excuse in accordance with University policy.

Three Two-Page papers (45%, or 15% each)
Over the course of the semester, you must write two analytical papers and one creative paper. See the Two-Page Paper Handout for further guidelines.

Papers will be due in section the week after the reading is assigned on the syllabus. In other words, if you do a paper on week three readings, it will be due in section week four. You will decide when to hand in the paper and which will be creative and which two will be analytical.

First Paper due no later than Week Six
Second Paper due no sooner than Week Seven and no later than Week Ten
Third Paper due no sooner than Week Eleven and no later than Week Sixteen

Handouts
The following handouts, as well as the syllabus, are available for viewing and download on the course website http://history.wisc.edu/sheehan/103/103home.htm. Those marked with asterisks (*) will not be handed out in class, but must be downloaded

*Geography Handout - a list of items you need to know for the map quiz
*Practice Map - a blank map of China like the one you will use to take the map quiz
*ID Handout - List of items you will need to be able to identify for the midterm and final.
*The Two-Page Paper - detailed instructions on writing your two-page paper assignments
