LECTURER: Steve Kretzmann, 4111 Humanities
SECTION LEADER: Ty Priest
Phone: 263-1960
Mailbox: 4099 (located next to the stairs on the 4th floor of Humanities)
Office hours: 2:30-4:00 Tuesday and Wednesday. I prefer (and encourage) meetings during my regular office hours. If that proves difficult, however, call, leave me a note, or flag me down after lecture to make other arrangements.
LECTURES are Tuesday and Thursday in 1111 Humanities.

Course Description:

Essentially, this course is about power. The first part of the course will focus on the social, economic, and political arrangements which evolved in the United States between 1890 and 1945, arrangements which helped explain and determine the distribution of economic and political power in this country at the end of World War II. Lectures and readings will focus on the histories of important economic and political institutions, and on the evolution of the relationships between those institutions. Throughout the course we will be assessing which groups in society gained and which groups lost power because of the specific institutional arrangements that took hold.

The second part of the course will focus on how the institutional arrangements which were in place in 1945 have evolved and have placed constraints on the formation and implementation of public policies down to our own times. Emphases will be placed on specific policy areas—such as health care, military spending, and environmental policies—which have been shaped by the institutional structures and distribution of power that have evolved in this country.

Students should emerge from this course with a better understanding of (1) the tensions between democratic and capitalist institutions (i.e., democracy and capitalism are not synonyms), (2) the recurring crises to which American capitalism is prey, and (3) why the American economy performs as it does.
Grading Policy:

Your grade will be determined by your performance on two take-home examinations, and by your attendance and participation in weekly discussion sections with Ty Priest. Mr. Priest may, from time to time, make brief assignments to enhance your understanding of the course materials. Discussion sections are mandatory and comprise an essential part of the course. Specifically, your grade will be determined using the following formula:

Section participation: (30 percent)
First take-home exam: (30 percent)
Second take-home exam: (40 percent)

IMPORTANT NOTE ON READINGS:

The bulk of the reading will consist of photo-copied essays which will be made available to you in one of two ways. Several copies of many of the essays will be kept on reserve in the reserve room of Helen C. White Hall (the undergraduate library, across Park Street from the Union). We realize that this is not the most convenient arrangement, but the nature of the course and strict copyright laws make this the only practical way to operate. (It also saves you some money!) It is very important that you treat the materials on reserve with care, refraining from marking or bending the articles or the bound volumes, so that your classmates and future generations can continue to use them!

In addition to the reserve materials, it is very likely that we will ask you to purchase a small packet of articles from one of the local copy shops, and it is also likely that we will use one or two books that will be made available through the book store later in the semester. Both Ty and I will give you complete instructions when the time comes.

Those students who have a deficient background in American history should obtain a general textbook on twentieth century American history and read it along with the specific assignments during the course. Many textbooks will do, for example: Chaudacoff, et al., A People and a Nation (Houghton, Mifflin Co.), and John Blum, et al., The National Experience (Harcourt, Brace).

Note that the following week-by-week listing of required readings is not complete. It will be your responsibility to keep up with additions and changes as the course progresses, though we will do everything we can to keep you informed.
Lecture Schedule and Reading Assignments

(NOTE: Essays designated with a * are contained in the volumes bound with the title Readings in American Political Economy, under the authorship of J. Rogers Hollingsworth. Several copies of these volumes are on reserve at White library.)

Week 1: Introductory
2 Sept: Course intro
Readings: None.

Week 2: The Organization of Power and the Problem of American Exceptionalism
7 Sept: Capitalism, Socialism, and Democracy
9 Sept: American Exceptionalism
Readings:
Hollingsworth and Hanneman, "Leftist Governments, Working Class Power, and the Political Economy of Advanced Capitalist Societies" (reserve, approx. 19 pp.)
