Spring 2016
Office hours: Fridays 1:15-2:15, and by appointment.

This course looks at the development of the Stalinist Soviet Union and Nazi Germany, and at the changing relationship between these two states and their leaders in the 1930s and 1940s. We will compare Stalinism and Nazism, and investigate the ways in which Adolf Hitler and Joseph Stalin influenced and learned from each other. We will look at collaboration between the two regimes, focusing in part on the politics and outcomes of the Hitler-Stalin Non-Aggression Pact of 1939. We will also examine politics, propaganda, everyday life, and reproductive policies under both regimes. Finally, we will look in depth at the Second World War. We will investigate the genocidal policies pursued by each regime and delve into the questions of resistance, collaboration, and judgment.

Format: Reading and discussion. Students are expected to show up for class prepared and ready to participate. Students will have the opportunity to co-lead discussion twice during the semester.

Response Papers: Over the course of the semester students will write ten short (one-page) "response papers" related to the weekly readings.

Research Papers: Students will work on original 15-page research papers on topics related to the course theme. Students are required to use a range of primary sources and to become well acquainted with the secondary literature on their chosen topic. Primary sources might include newspapers, memoirs, government documents, archival documents (in edited volumes or on approved websites), photographs and other visual sources, speeches, letters, and so on. On designated dates (see below), students will submit a research question, a revised research question, a research proposal, a revised research proposal, and a short bibliography of primary and secondary sources. Research papers are due by 5 pm on Monday May 9.

Readings: Readings with a * next to them are available for purchase at the University Store and on reserve at College Library. You can also find used copies through on-line sellers. Readings with a [P] next to them are in the course packet. The course packet is available for purchase at StudentPrint on East Campus Mall and is also on reserve at College Library.
**Course grades will be based on the following distribution:** Participation (including presentations) 35%, response papers 20%, research-related assignments 15%, final research paper 30%.

**Library Session:** All students are required to attend the scheduled library session at Memorial Library during class time on February 19.
