OF THE
UNIVERSITY OF WISCONSIN,

For the Year 1872-73 and the First Term of 73-74.

MADISON WIS.:

NOV. 1873.

I. COLLEGE OF ARTS.

The College of Arts is organized under the following section of the General Laws of 1866, Ch. CXIV:

SECTION 2. The College of Arts shall embrace courses of instruction in the mathematical, physical and natural sciences, with their application to the industrial arts, such as agriculture, mechanics and engineering, mining and metallurgy, manufactures, architecture and commerce, in such branches included in the College of Letters as shall be necessary to a proper fitness of the pupils in the scientific and practical courses for their chosen pursuits, and in military tactics; and as soon as the income of the University will allow, in such order as the wants of the public shall seem to require, the said courses in the sciences and their application to the practical arts, shall be expanded into distinct colleges of the University, each with its own faculty and appropriate title.

The plain object of this section is to provide, not only for a general scientific education, but also for such a range of studies in the *applications of science* as to meet the wants of those who desire to fit themselves for agricultural, mechanical, commercial, or strictly scientific pursuits. The courses of study are such as to provide a sound education in the elements of science, and at the same time to give great freedom in the selection of studies according to the choice of the individual student. As higher demands are made they will be met by adding to the list of elective studies, and by the enlargement of the Faculty of Arts, so as to form distinct colleges, as provided for in the act of reorganization.

This College embraces the Departments of General Science, Agriculture, Civil Engineering, Mining and Metallurgy, and Military Science.

FEMALE COLLEGE.

The course of study in this college is the same as that in the Department of General Science, College of Arts, with the following substitutes allowed:

In place of Surveying, Navigation, Agriculture, Analytical Geometry, and the Calculus, of the *Sophomore Year*; and in place of Chemistry and Analytical Chemistry of the *Junior Year*, Latin or Drawing may be substituted.

Ladies are permitted to pursue any course or elective study in the University, when preferred, and the same degree is conferred upon them as upon the gentlemen for the satisfactory completion of any course of study.

Students who do not desire to graduate may enter at any time, and take any study of the term which they are prepared to prosecute to advantage.

The Ladies' Hall, erected by the munificence of the State, is an elegant and commodious building. It contains a chapel, teachers' rooms, recitation rooms, study and lodging rooms for about eighty students, and ample accommodations for boarding.

Students' rooms are neatly carpeted and furnished with heavy furniture. Occupants will be expected to provide the toilet sets needed in their rooms; also, towels, napkins, sheets, pillow-cases, blankets and counterpanes, all of which should be plainly marked with the name of the owner.

Students occupying this building are under the immediate charge of the preceptress, who, with her associate teachers, gives constant attention to the manners and general conduct of the pupils.

Competent and successful teachers give instruction in instrumental and vocal music.

The department of Boarding is under the direction of an experienced and efficient Matron, whose excellent character, business tact, and kind attentions to the young ladies evince peculiar fitness for her position. Ladies occupying rooms in the building are required to board with the Matron.

It is the design of the Regents and Faculty of the University to furnish young ladies with the means of securing an education as thorough and finished as can be obtained at any other institution in the country. To accomplish this object all available resources will be employed.

Sub-Freshman Class.

For the purpose of securing a thorough preparation for the course in Ancient Classics, College of Letters, the following course has been arranged in Latin and Greek:

FIRST YEAR.

Latin—Leighton's Lessons, Allen and Greenough's Grammar and Selections, (Cæsar, Curtius, Nepos and Sallust. 134 pages).

Greek—Leighton's Lessons, Goodwin's Grammar and Reader (Xenophon).

History—Thalheimer's Ancient History.

SECOND YEAR.

Latin—Cicero's Select Orations (8), Virgil's *Æneid* (6 books), Allen's Composition (35 lessons), Grammar.

Greek—Goodwin's Reader (Xenophon and Herodotus, 155 pages). Homer's *Iliad* (2 books), Arnold's Composition, (33 exercises), Grammar.

Preparatory Department.

The studies of this department are arranged with special reference to the accommodation of students who desire a suitable preparation, in English, to enter the College of Arts, the Female College, or the Sub-Freshman Class of the College of Letters.

Those who enter this Department are subject to the same rules as college students.
